Town of Minto Ice Storm Clean up

March 30th, 2016:

The Town of Minto continues to clear tree limbs on roadsides this week following the ice storm Thursday March 24th. Cemeteries closed for public safety through the weekend are expected to be open today. Power outages in urban areas were relatively short lived and intermittent during the storm. On Monday water levels in Harriston were monitored during the flood watch but did not reach critical levels.

Town of Minto asks residents may bring downed tree limbs from the storm to the side of the road this week for clearing by Town Public Works.

For more information about the cleanup, call 519-338-2511, visit www.town.minto.on.ca or email mike@town.minto.on.ca.
