

Temporary Road Closure

On Wednesday March 25, 2015 from 9:00 am – 3:00 pm Bride Road will be closed from the 3rd Line of Minto to the 5th Line of Minto to perform Geotechnical Drilling on the Culvert at the South end of Bride Road. Due to the size of equipment and narrow road width traffic will be detoured. The onsite consultant has confirmed in the case of an emergency the drill can and will be moved out of the way. Regular traffic will be detoured.

Any questions please contact the undersigned.
